Mount the thermostat to the wall There are two series of mounting holes when mounting on a junction box, another set for direct wall mounting. Do not mount the thermostat... behind the doors, in the corners or other medium spaces. The default value 4 events (the EnergyStar® setting), which will result in the events "Leave" and "Return" to be used during scheduled operation. Do not cut into wire when isolation, as this can lead to a possible control error. If a thermostat is replaced, place the thermostat to cover the old thermostat silhouette. Thermostat armhole in a junction box 1. Water panel change indicator characteristic - use this function if the house has a whole house humidifier Like the Humidifier to open panel for regular water. Use the ADJUST button to switch from a "F" and a "C". This will cause events "LEAVE" and "RETURN" to ignore during the programmed operation. Press the current time button to enter the minute value and access the value "Day". Press the LIGHT button when the desired offset value has been set. FC Light Rule 4.6. Temperature offset (of) All thermostats are factory calibrated to be between 1° of Terra temperature. Choose a location to mount the thermostat about 5 feet from the floor (refer to local codes for compliance with the Americans with disabilities). Slide the fan switch to the ON position. 6. Place the thermostat wire opening above the wall opening. Consult the literature of the equipment manufacturer for safe operating temperatures. Air filter change indicator - Use this function to remember the homeowner when a modification of the air filter is required. Wire colors shown only for reference. Remove the thermostat - Flip Open the cover. - Remove the Termost face - No tool required. 2 please contact the thermostat 2. to direct sunlight, nearby lamps or other heat sources. Disconnect the power supply to the air conditioner before starting the installation. Strip 1/4" of insulation from each wire. Return the fan switch to the auto position. Use the "A" adjustment and adjust the "gi" buttons to set the current day of the week. IMPORTANT! Turn off the power to the HVAC equipment before installing the thermostat! PU TES.
